

Welcome to the SFU Beedie Business Analytics Hackathon!

Congratulations on securing your spot in the annual SFU Beedie Business Analytics Hackathon. In the age of GenAI and automation, the ability to translate data into business insights and communicate their value to stakeholders through an analytic product like a dashboard has never been more critical: no AI can replace that human judgment. We are excited that you have chosen to engage in this meaningful and impactful learning experience, and we hope you enjoy the competition!

Competition Rules:

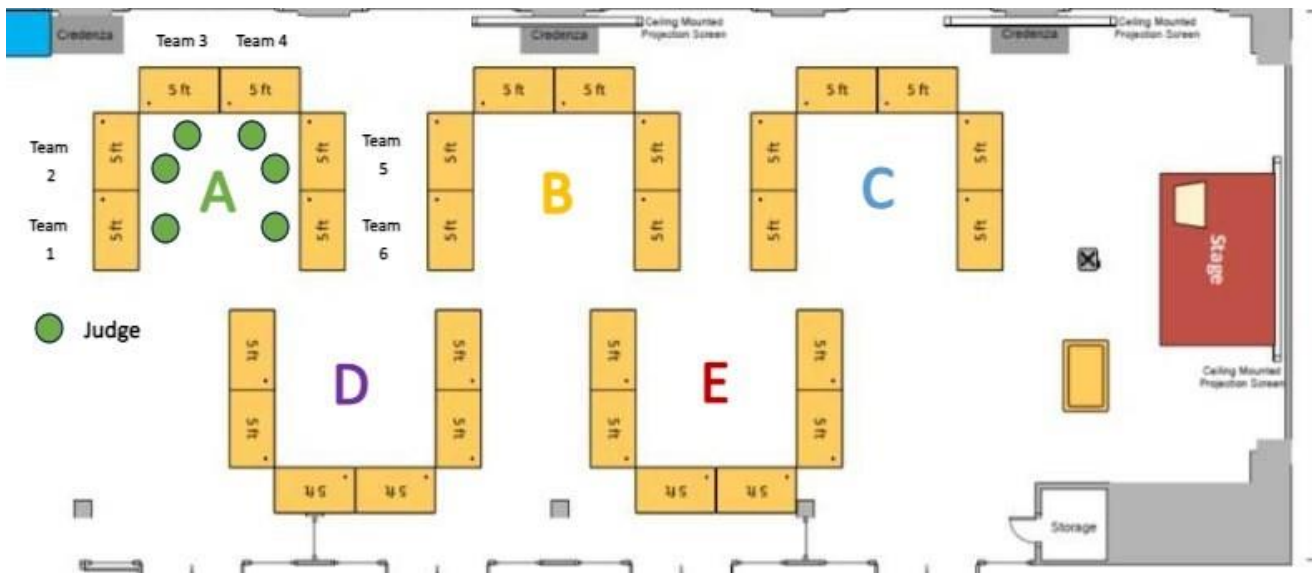

- Each team must submit a one-pager, describing your team roster (programs, year of study and relevant experiences) and your preliminary approach (e.g., analytics platform used, key features of your dashboard) to our OneDrive via this link: [One Pager Submissions](#) by **Wednesday, May 27 at 4pm.**
- Each team must check in together, in-person, on **Saturday, May 30** between **11:30am - 12:00pm at the Segal Graduate School of Business** (500 Granville St., Vancouver Downtown) in the **front lobby outside room 1200-1500**. All team members must be present for this check-in.
- Each team must submit their dashboard, related files and slide decks (if applicable) to our OneDrive via this link: [Team Deliverables Submissions](#) by **Saturday, May 30, 12:30pm.**
- Teams are **not permitted to make any changes** to their deliverables after the deadline above. Staff will audit presentations throughout the preliminary round. Any discrepancy between submitted and presented materials will be subject to review and may result in disqualification. Submitted deliverables will carry forward to the final round as well.

- Immediately following their preliminary round presentation, each team will complete a Team Reflection Form together before the finalist announcement. Completion of the form is required to be eligible for the **Award for Most Thoughtful Professional Development**, which will be presented to the team demonstrating the most honest and insightful reflection on their own work.

Preliminary Round:

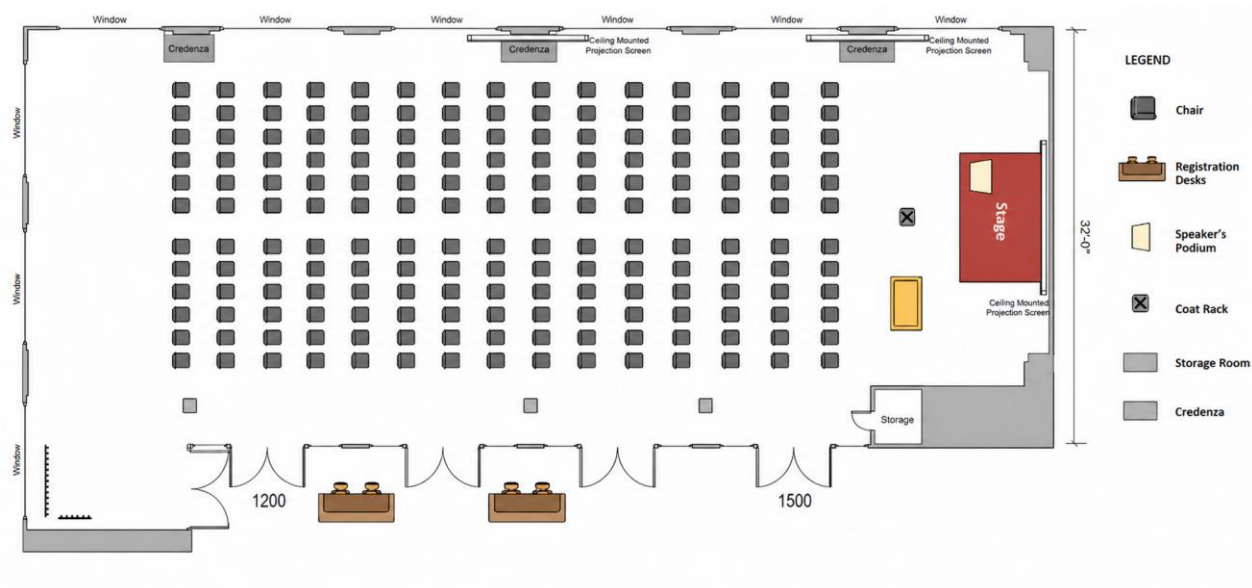

- There will be **5 competing Divisions** (Divisions A – E), with teams randomly assigned in a stratified manner to their competing Division.
- Teams will have 5 minutes to present their dashboards, followed by a 5-minute Q&A session with 1 – 2 judges in each rotation.
 - Please note: the presentation time is NOT PROTECTED (i.e. a judge can interrupt your presentation at any time to ask a question).
- Following the presentation and Q&A time, the judge(s) will engage in a **5-minute feedback** conversation with the team before moving to the next presenting team.
- This 15-minute cycle (5-minutes presentation, 5-minutes Q&A, 5-minutes feedback) will count as one rotation. Each team will go through **4 to 5 rotations** in total during the Preliminary Round, with each rotation having a new judge.
- The top team from each Division will be selected to advance to the Finals Round.

The Preliminary Round will take place in **Segal Graduate School of Business 1200-1500** – the space set-up can be found below (we have used Division A as an example):

Finals Round:

- The Finals Round will take place in the same room as the Preliminary Round: **Segal 1200–1500**. The space set-up can be found below. All teams that make it to the finals will present on stage in front of all competitors and judges.

- The Finals Round will consist of **5 Finalist Teams** (one from each competing Division). The presentation order will be randomly assigned. All competitors will be invited to attend the Finals Round as audience members.
- There will be a panel of judges evaluating each team based on their presentation and Q&A.
- Finalist teams will have 5 minutes to present their deliverables, followed by a 10-minute Q&A period. The 5-minute presentation will be protected time.
- All participants are required to stay until the end of the finals whether they have won or not to support their peers and fellow team members in the spirit of collaboration and sportsmanship.
- Judges will rank on each team based on their scoring and evaluation criteria. The 1st, 2nd, and 3rd place teams will be announced at the Awards Ceremony taking place at 5:00pm that day

Competition Schedule:

- **Hackathon Competition Day:** Saturday May 30, 9:30AM - 5:30PM @ Segal Graduate School of Business (500 Granville, Vancouver, BC V6C 1W6)
- **Dress Code:** Business Casual
